PROFESSIONAL SUMMARY

Motivated Web Developer around 2 years of experience at Blueoshan and internship experience at INBOXIST, specializing in building and optimizing web components. Proven ability to work independently, design new components from detailed specifications, and enhance existing code for better performance and maintainability. Experienced in developing client frameworks for caching, reusable components, and integrating HubSpot client projects to drive marketing and sales efficiency. Familiar with Big Data tools including Apache Spark and Hadoop.

PROFESSIONAL EXPERIENCE

Junior Software Developer | Blueoshan, Chennai | June 2023 – April 2025

- Built and optimized UI components and client-side caching frameworks, improving load times and enforcing design consistency across projects.
- Refactored and maintained modular, well-documented codebases, reducing technical debt and improving long-term maintainability.
- Collaborated with cross-functional teams of designers and backend developers to deliver scalable, high-quality web solutions on schedule.

Software Developer (Intern) | INBOXIST | June 2025 – January 2026

- Contributed to software development projects as part of the engineering team.
- Assisted in building and maintaining application features, collaborating with senior developers on design and implementation.
- Gained hands-on experience in real-world software development workflows and agile practices.

TECHNICAL SKILLS

Front-end Technologies: HTML5, CSS3, JavaScript, React.js

Back-end Technologies: Python, Node.js

Database: MongoDB, SQL

Big Data Tools: Apache Spark, Hadoop

Caching & Performance: Client-side caching strategies, browser storage (local/session storage)

Tools: Git

Methodologies: Code Reviews, Test-Driven Development (TDD)

Other: Responsive Design, Cross-Browser Compatibility

PROJECTS

HubSpot Dynamic Dashboard

- Developed a dynamic dashboard tailored for HubSpot client projects, featuring interactive data visualization components to support marketing and sales efforts.
- Implemented client-side caching mechanisms that improved data retrieval performance by 30%, contributing to faster load times and a superior user experience.
- Optimized overall application performance through strategic code refactoring and effective utilization of HubSpot integrations to streamline client workflows.

Reusable Component Library

- Designed a library of reusable UI components, ensuring consistency across various applications.
- Enhanced code maintainability by implementing a component-based architecture and modular design patterns.

EDUCATION

BE (ECE) | 2023

National Engineering College, Kovilpatti | CGPA: 8.11

HSC | 2019

Annai Velankanni Matriculation Hr Sec School, Pavoorchatram| 68%

SSLC | 2017

Annai Velankanni Matriculation Hr Sec School, Pavoorchatram| 93%

CERTIFICATIONS

- Full Stack Development with Python – Besant Technologies
- AWS Cloud Practitioner
- Essentials Deep Dive: Managing and Monitoring Amazon EBS
- CCNA - Greens Technology
